SELECTED WORK 01

A single, considered case study.

One project, told slowly. The kind of work that asks for patience and rewards a careful read.

FEATURED CASE STUDY

01 / 01

UI/UX MOBILE

DigiYatra, Reimagined.

A research-led redesign of India's facial-recognition airport boarding flow - built around glanceability and the calm of knowing exactly when your flight leaves.

GLANCEABILITY

HIERARCHY

CALM UI

EXPERIENCE 02

A short, focused trail.

Hands deep in product code - shipping features, learning systems, and treating each commit as a design decision.

Software Developer

NOV 2025 - MAR 2026

Mitsogo Inc

Shipped production features end-to-end across the web stack - built reusable React components, integrated REST APIs, and improved frontend performance and reliability through tighter test coverage and code reviews.
